Kovadsbæk Cycle Route

10.9 km
227 m elevation

The Kovadsbæk Cycle Route takes you through some of the beautiful landscapes around Rebild Bakker and Rold Forest. The route starts and ends at RebildPorten and mainly follows cycle-friendly gravel roads, making it suitable for a regular bike.

Along the way, you will pass Ravnkilden, Kovadsbæk and Gravlev Lake, where forest, water and open views create a peaceful and varied nature experience. The route includes small climbs, green stretches and good opportunities for breaks.

At just under 11 kilometres, the route is ideal for a manageable cycling trip in the Rebild area, and for families with children, Røverkolden Nature Playground is a natural stop along the way.
