Rold Skov West Cycle Route

35.2 km
734 m elevation

The Rold Skov West Cycle Route takes you on a longer and hilly ride through the western part of Rold Forest. The route starts and ends at RebildPorten and offers an active cycling experience with forest, hills and varied landscapes along the way.

Along the route, you cycle through some of Rold Forest's green surroundings, where forest roads, open stretches and elevation gain create a varied ride. The route is ideal for those who want to get active and experience the Rebild area from the saddle at a calm, nature-focused pace.

At 35.2 kilometres and with 734 metres of elevation gain, the route is well suited for those looking for a longer cycling trip with a few challenges along the way. Before or after your ride, you can visit RebildPorten, where you can charge your e-bike, pick up flyers and get inspiration or help for your trip in the area.
